A GREAT BATTLE NOW BEING FOUGHT

Gen. Kuropatkin Being Attack-
ed by Japanese.

The Report That Port Arthur
Has At Last Fallen Is
Discredited.

CONFLICTING STORIES CURRENT

Chefoo, July 14.—Private advices from New Chwang indicate that the long expected battle at some point between Kai Chow and Tachai Kao is now in progress. The forces arrayed against General Kuropatkin probably number a hundred and twenty-five thousand men and the fight will beyond doubt prove a terrible one.

STORIES LACK CONFIRMATION.

London, July 14.—Neither confirmation nor denial has been received from official sources of the reports that Port Arthur had fallen. The report that the Japanese were repulsed in a desperately fought battle and lost in the neighborhood of 30,000 killed and wounded is also without confirmation.

HEAVY FIRING HEARD.

New Chwang, July 14.—Heavy firing was heard to the southeast day and night for several days. This is taken to indicate that the Russians are offering stubborn resistance to the Japanese advance. There is a report that the Japanese have occupied Yinkow.

FORCES WITHDRAW.

St. Petersburg, July 14.—A dispatch received today reports that a Japanese force which began a march on Tatsienlo has returned to Kai Chow.

BATTLE NORTH OF KAI CHOU TUESDAY

London, July 14.—The Yin Kow correspondent of the Daily Chronicle asserts that a battle occurred north of Kai Chow, July 12, when the Japanese were repulsed with great loss.

Ta Tehe Kiao, Monday, July 11.—Delayed in Transmission.—The Japanese attacked Ta Tehe Kiao yesterday, but the attack was not seriously pressed, the Japanese retiring eventually toward Kai Chow.

AN ALLEGED CONFIRMATION.

St. Petersburg, July 14.—A special dispatch received from Mukden dated July 12, repeats the story of a Japanese repulse at Port Arthur with the lives of 30,000 men. The dispatch says:

"News has been received from reliable source that the Japanese third army, on the night of July 11, attacked Port Arthur and was heavily defeated, an immense number being killed by Russian mines. The total loss is about 30,000.

There was great interest throughout St. Petersburg all this afternoon for the further details of the disaster. It has developed that the official report, which was at first supposed to emanate directly from Viceroy Alexieff, was not specifically fathered by him, but was given out as a report reaching his headquarters from "Japanese sources." What these sources are has not yet been explained. Possibly the report was intercepted by wireless telegraph, but it is more likely that it came from the Russian Consul at Chefoo or the Russian Consul at Tien Tsin.

A full report on the subject is awaited from Lieutenant General Stoessel, commander of the military forces at Port Arthur.

LACY DUNN DROWNED IN ILLINOIS LAKE

Popular Man Fell From Boat
and Sank to Rise No More.

Believed to Have Suffered an Attack
of Heart Failure While
Fishing.

THE BODY SOON RECOVERED

The lower lake opposite Paducah in Illinois, has claimed another victim. Mr. Lacy Dunn, of 821 South Third street, a well known brick layer, was drowned about 6 o'clock this morning while fishing, his body being recovered by his companions about an hour later. A sudden attack of heart disease is supposed to have been the cause of his tragic fate.

Mr. Dunn went across to the lake yesterday to join a party of friends who have been camping there for several days. He complained of being ill late yesterday afternoon while in a boat out in the lake, and was taken to camp, where he soon recovered. On account of his illness he decided to return to Paducah this morning instead of staying a day or two longer, but was stricken before he could catch the ferryboat and return.

Mr. Dunn did not complain when he arose this morning, and rowed out among some bushes a few feet from the bank to fish.

Will Sweeney and Will Kane were on the opposite bank in another boat, which was tied to the bank. They had been talking when Mr. Dunn said something about if they didn't have any luck where they were, to come over where he was. These were the last words he ever uttered. In a moment they saw him suddenly topple over and fall from his boat into the water. They hastened to untie their boat and rowed over to where he disappeared. His hat was floating in the water, but when they reached under it there was no head. They waited for their companion to come up, but he never came. They could see bubbles where he vanished, but he never came to the surface.

Mr. Sweeney hastily jumped in, and was held by Mr. Kane while he dived about on the bottom and attempted to locate Dunn, but he was unsuccessful. His hand touched nothing but weeds and bushes on the bottom of the lake.

They then went to camp and secured a long pole and hook, and in this way about an hour after the tragedy, found the body and raised it.

Mr. Dunn was subject to attacks of heart disease, and it is believed by his companions that he had one this morning. They think he was probably dead when he hit the water.

Friends from the camp came to the city at once and notified relatives, reaching here about 7 o'clock. Mr. Pete Dunn, a brother of the deceased, accompanied by Messrs. Joe Wagner, Les Parry and several others left at 8 o'clock in a skiff, but the body was found a short time before they got there and was brought to the city in a skiff and taken to the Effinger undertaking establishment.

Among those in the camp were: Will Mix, Will Kane, Will Berger, John Sweeney, John Kyle and Fritz Berger. Others had been over at different times during the encampment, but the above were about all there today when Mr. Dunn was drowned.

Coroner Peal held an inquest this afternoon at 1 o'clock at the Effinger establishment, and the evidence heard was in accordance with the above. Mr. Dunn complained of being ill yesterday, but seemed better today and was very cheerful when he gave Messrs. Sweeney and Kane some minnows about half an hour before the drowning.

It was the opinion of his companions that he had a stroke of apoplexy or heart disease. His boat was a tin one with air chambers and which can not sink or turn over, and had he not been sitting in the end he probably

A FATAL CRASH KILLS EIGHTEEN

Bad Wreck Near Chicago on
C. & E. I.

A Picnic Train Dashes Full Speed
Into a Freight Train—Sixty-
eight Were Injured.

CAUSED BY MISPLACED SWITCH

Chicago, July 14.—Eighteen people were killed and 68 injured last night in a collision on the Chicago and Eastern Illinois railroad at Glenwood, 23 miles south of this city.

The collision occurred between a picnic train returning from Momence, Ill., and a freight train, into the rear end of which it dashed. The picnic train was on the right hand track, coming north, and the freight train was on the left track. A misplaced switch threw the picnic train over on the left track, and before the engineer could apply the brakes it ran at forty miles an hour into the rear of the freight. The engine, baggage car and first coach of the picnic train were demolished, and all of the killed and injured were on the engine and in the two cars.

FROM WASHINGTON IN THEIR CANOES

College Boys Come all the Way
From Washington in a Skiff.

Abandoned Their Trip Here to Pro-
ceed to World's Fair
By Rail.

WERE WELL TREATED

Messrs. Rob Imbrie, Otis H. Gates and H. O. Hengstler, three young men from Washington, D. C., are at the Palmer House. They arrived in Paducah yesterday afternoon late in small rowboats, enroute from Washington to the World's Fair in St. Louis. They started at the head waters of the Tennessee river in the mountains of West Virginia, and have come the entire distance from the mountains in their frail boat, landing at Paducah after a trip of several weeks.

They intended to go all the way to St. Louis by river, from here to Cairo by the Ohio and from there up the Mississippi, but learned that their trip had consumed more time than they expected, and decided to go the remainder of the distance by rail. They shipped their boats this morning by the Southern Express Company, and leave this evening. They are all young college boys.

The three young men are students in Columbian University, Washington, D. C., and made the trip simply for the pleasure it afforded. Messrs. Gates and Imbrie are both in the government geological service and have to return at an early date. Mr. Gates going to Washington today at noon by rail. Messrs. Imbrie and Hengstler, however, will take their canoes and paddle to Cairo tomorrow and ship their outfit home, after which they will proceed to St. Louis by boat.

Mr. Hengstler stated: "We have never been better treated in our lives than on this trip. We started from Washington on June 13th and shipped our stuff to Bridgeport, Tenn., where we made a start. We encountered much trouble in the French Broad which is full of shoals and rapids and part of the time we had to wade. We traveled in two canoes, especially made for the trip. They measure 18 and 14 feet, and are named "The Kid" and "Papoose," respectively. We traveled on an average of 35 miles a day and camped out at night, carrying our tents and utensils, etc., in water proof bags. The entire outfit weighed about 1,000 pounds and our canoes 100 pounds each. One dangerous thing we did was to shoot the "Suck" in Tennessee river, located about 100 miles above Chattanooga."

The young gentlemen are members of the Columbian College Canoe Club and know of but one other trip made which outdoes theirs, this being made in 1880 from the Alleghenies to the Gulf of Mexico. The young gentlemen traveled a distance of 830 miles and their arms and faces are badly tanned, but other than their appearance they are none the worse for the trip.

PAUL KRUGER DEAD IN SWITZERLAND

Former President of the Transvaal Succumbs.

He Was Broken in Body and Spirit
—The Burial in South
Africa.

THE WHOLE VILLAGE BURNED

Geneva, July 14.—Oom Paul Kruger, former president of the Transvaal Republic, died at Clarens, Swiss Canton of Vaud, at three o'clock this morning.

Death was due to heart weakness resulting from an attack of pneumonia. He had been ill a month, and last Monday lost consciousness. Application will be made to Great Britain for permission to take the body to the Transvaal for interment.

150 INJURED.

Vienna, July 14.—The village of Bodony, Hungary, was almost destroyed by fire today. Five were killed and one hundred and fifty injured. Nine-tenths of the population is destitute.

CRIMINAL NEGLIGENCE

THE CITY HAS NEVER CLOSED
OR COVERED DANGEROUS
WELLS.

The city, despite the many complaints made recently, has never yet closed or covered up the dangerous and open wells near Sixteenth and Jefferson streets, and in the commons in that vicinity. Sometime ago a horse fell into the open well on the commons, and at that time the city's attention was called to the well but nothing was done. This afternoon another horse fell into the well, and was extricated with great difficulty by people in the neighborhood, who are very indignant at the way the city has ignored the requests to cover the well.

OYSTER BAY AROUSED

EXPLOSION ON GASOLINE BOATS
STARTLES SECRET SER-
VICE MEN.

Oyster Bay, July 14.—A tremendous explosion in the direction of Sagamore Hill last night frightened Oyster Bay out of bed. It sent Secretary Loeb and the secret service men on duty at the presidents house scurrying to learn what had happened and an investigation showed that the explosion was aboard a gasoline launch.

BURIED HERE

BROTHER OF CAPTAIN WILLIAM
BRYANT ARRIVES.

Captain Samuel Bryant, brother of Captain William Bryant, who dropped dead Tuesday night on the steamer J. B. Richardson, arrived from Memphis this afternoon. He has arranged to have the body of his brother buried here, and the funeral will take place from Effinger's Undertaking establishment at 9 o'clock tomorrow morning. The burial will be at Oak Grove.

The verdict of the coroner's inquest held yesterday afternoon was that death resulted from heart disease.

MARK TWAIN BRINGS WIFE'S BODY.

New York, July 14.—Samuel L. Clemens (Mark Twain) and his two daughters, bringing the body of Mrs. Clemens, who recently died in Italy, arrived on the steamer Prinz Oskar by way of Genoa, Palermo and Naples. Mrs. Clemens' body will be taken to Elmira for burial.

CHARGED WITH VAGRANCY.

Mann Dodson and Roy Dunlap, colored, were arrested this morning charged with vagrancy. They will be given a hearing before Judge Sanders tomorrow morning.

WATTERSON WRITES PARKER

Daphin, Manitoba, July 14.—A large band of Donlaboboers, Russian exiles, has settled in the northwest. They arrived at Minos on a pilgrimage in search for Jesus. They had been on a march for days, and some are in a pitiable condition. An effort is being made to have them return to the villages, as it is feared they may die of starvation.

BODY IN STATE.

Toledo, July 14.—Surrounded by banks of flowers the remains of "Golden Rule" Mayor Jones lie in state in Memorial Hall today. All business will be suspended during the funeral Friday.

WILL PROBABLY ARBITRATE.

Chicago, July 14.—The packers at a private conference ended at noon, practically agreed to meet the union men this afternoon and discuss the preliminaries of an arbitration agreement.

COLONEL WATTERSON WRITES.

Esopus, July 14.—Two of the most cordial letters that Judge Parker has yet received were in the mail today. They were from Richard Olney, of Massachusetts, and Colonel Henry Watterson, of Kentucky. Both assured him cordial support.

POPULAR BOY

WAS DROWNED WHILE IN BATH-
ING AT MADISONVILLE.

Madisonville, Ky., July 14.—Chesley Shank, a highly respected young man of this city, was drowned in the Victoria Mining pond, in this city, while bathing. The young man was a son of Mr. J. H. Shank, a widely known contractor of this city. He was one of the brightest and most promising young men of the city, and was agent for almost all the metropolitan dailies coming to this city.

NEW BRIDGE

WAS INSPECTED TODAY BY
COUNTY OFFICIALS.

County Judge R. T. Lightfoot, Road Supervisor Bert Johnson accompanied by several magistrates and the bridge construction people, went to Bolin Ford, Clarks River, to inspect the iron bridge just completed by Contractor Sinnott, of Nashville.

The bridge is now ready for acceptance and the committee will report to fiscal court at the next meeting the result of today's inspection. If the bridge is found to be built according to specifications, it will be thrown open to the public for use. The bridge cost about \$5,000.

A 1 TO 0 GAME.

The first "1 to 0" game played in Paducah for some time was enjoyed by a large crowd at league park yesterday afternoon. Paducah defeating Clarksville and Jim Freeman pitching for Paducah for the first time in three weeks. There were no features of the game except that only three hits each were made. It was a good game and the fans like to see that kind of playing. Freeman was in his usual good form and it was evident the fans were glad to see him back.

BASEBALL NOTES.

Gerard played a star game at third base yesterday, accepting eight difficult chances without an error.

The grand stand was packed with ladies yesterday and every play on both sides was loudly cheered.

Willie Popp is a fairly good umpire but was a little nervous on his initial appearance in Paducah yesterday.

"The first thing the Paducah fans attempt to do," a Clarksville ball player stated, "is to bluff the umpire. This seems to be your greatest graft to win victories."

Doll and Pettit for Clarksville, Brady and McKenna for Paducah are the batteries for today. Kennedy, the new catcher, will work for Paducah if he arrives.

Eddie Powers, center fielder for Clarksville, got a "sun fly" yesterday. He lost the ball but held out his hands and when the sphere fell into them squeezed it. The catch was an excellent one and deserved all the applause he got.

Anderson hit one to deep left yesterday and made a clean three bagger. He fell off the base and was tagged by Gerard. This cut off one sack, making the hit only a double.

Catcher Kennedy, late of the Fowler, Ind., team, is in the city and will work with the Indians today. He will probably be played in the outfield today and will not be worked behind the bat before tomorrow. Kennedy is a big man, nearly as large as Land, and is said to be a good hitter. He came under the recommendation of Long who would not try to "dope" the local management.

Mayfield is greatly interested in baseball. Huntington, Tenn., and the Paducah L. A. L. teams will be in Mayfield next week. Mayfield always has drawn well and the fans are supporting a good team.

Crangle has been regularly signed on the pitching staff of Cairo.

Cairo fans and papers are kicking over Cairo ball players' dumb plays. Cairo does play dumb ball at times, lacking team work, and this is what was conspicuously absent in Paducah's playing at the beginning of the season.

Cairo has a new pitcher named Hurley who is possessed of wonderful speed, it is said. They claim he can throw the ball clear out of the park within the foul lines without any apparent effort.

ADJUDGED INSANE

TWELVE YEAR OLD GIRL SENT TO HOPKINSVILLE ASYLUM.

Karlene Poor, age 12, was tried before County Judge R. T. Lightfoot this morning and adjudged of unsound mind. She was brought before the court yesterday but the trial continued until today. The girl in her infancy was affected with epilepsy and was once before in an asylum. She was discharged but grew worse. The girl was born in Mayfield and was taken to Hopkinsville at noon by Mr. James Crow.

INSPECTOR HERE

STATE OFFICIAL IS GOING THROUGH FACTORIES.

T. J. Scally, of Louisville, state factory inspector, is in the city inspecting factories.

This is the first visit of Inspector Scally since appointment and is the second inspection made of Paducah factories.

Soon after the factory laws were passed by the legislature relating to child labor, the inspector came around and made an inspection but not since that time had one been here.

Inspector Scally will remain in Paducah until this territory is thoroughly worked and will probably go to Mayfield and Fulton.

NOTICE.

NEW TRICKS

Pitcher Freeman Expects to
Spring a Few of Them.

Learned a Great Deal On His Trip
With Nashville.

Pitcher Jim Freeman did not have his ears and eyes closed during his recent ten days trip on the southern circuit with the Nashville Southern League team, and has learned many new tricks which will surprise the Kitty League players when he springs them.

Freeman noticed that Southern League catchers work harder than he thought was absolutely necessary, and brought back with him several plays which he will introduce into the Indians' ranks, and hopes to better the head work of the team.

Gilligan was full of "big league" tricks but since his departure not so much head work has been seen, the management seemingly not to care particularly for it, but preferring the "hit and run" game with all chances accepted.

Freeman noticed particularly in the Nashville team was the perfect understanding each player had with the other. Plays which end with exactly the opposite effect than the one expected are pulled off with remarkable rapidity.

"I notice in the big league that every player keeps his regular position and no changes in positions are made unless absolutely necessary," Freeman explained, "and in this way the team work is perfected. Paducah the first of the season had her regular lineup unbroken and played phenomenal ball."

PARK COMMITTEE MET AND ORGANIZED

Judge Wm Reed Elected President of the Organization.

Mr. W. F. Paxton Was Chosen Secretary and Another Meeting Was Arranged.

THREE PARKS ARE DESIRED

A meeting of the newly appointed park committee was held in the council chamber at the city hall last night. The members of this committee are: Aldermen G. G. Singleton and G. R. Davis, Councilmen Gilson and Hyman, and Judge W. M. Reed, former Mayor James M. Lang, Messrs. W. F. Paxton and R. G. Caldwell.

The park question was discussed last night and it was decided to hold another meeting Saturday morning to look over sites. Judge W. M. Reed was elected president, and W. F. Paxton, secretary of the committee.

Alderman Singleton, who is father of the park movement, stated that his idea was that there ought to be a small park on the southside, a small park somewhere on the north side, probably in the vicinity of the Terrell farm, and a large park in the west end. The idea seems to be to get this property now before it is used for other purposes, thus be lost to the city.

It does not appear to be the belief of members of the committee that there is a very imperative demand for three parks at present, but that the sites should be selected and secured before it is too late.

Mayor Yeiser, who is an ex officio member of the committee, was present and stated that while the city has no money now with which to purchase park sites, its credit is good and it can purchase the sites on time and pay for them out of next year's levy.

The committee then discussed several prospective locations, and it was decided to adjourn until Saturday morning at 8 o'clock and then go out and look at some of the property the members have in mind. The exact location of these sites has not been made public, as it might result in the price being elevated by the owners.

FORMING PLANS

NEW MEAT AND MILK INSPECTOR NOT YET IN CHARGE.

Dr. C. G. Warner, who was several days ago elected to succeed Dr. G. B. Garber as milk and meat inspector, will assume control of his office in a week.

Dr. Warner stated this morning that he has begun outlining his plans of inspection and intends to have things run right. He will map out a line of inspection covering every slaughter house and dairy possible to inspect daily.

Dr. Warner is an energetic young man who will make the city a good officer. Dr. Garber's term does not expire for a week, but the election was held prior to the expiration of term in order to avoid delays and complications which arose when Dr. Garber was elected to succeed Dr. H. H. Duley.

BRIDGE CASE

Railroad Commissioners in Session at Grand Rivers.

Are Still Investigating the Claims of Three Counties For Bridge Tax.

Railroad Commissioners McD. Ferguson and C. O. McChord, went to Grand Rivers this morning to hear evidence in the contest case between Livingston, Lyon and Marshall counties over the tax assessment of the Illinois Central bridge which spans the river at the junction of the three counties.

The case is a peculiar one and the evidence will probably be concluded today. In speaking of the case Commissioner Ferguson stated: "The taxes on the bridge amounts to but little, and had heretofore been collected jointly by the three counties. Livingston county is claiming jurisdiction to the low water mark and the other two counties are claiming jurisdiction to the middle of the river. We will have to decide the boundary lines and even after this has been reached whichever county gets the better of the decision will profit little."

The railroad officials treat the matter with indifference and are watching the outcome with little interest. The commissioners expect to finish the case today but do not know when they will render a decision. This is the second meeting they have held, the first one being at the Palmer House three weeks ago.

A HOT GAME

WILL THAT BE BETWEEN DOCTORS AND LAWYERS.

County Judge R. T. Lightfoot has worked incessantly getting his "Legal Light" baseball team organized and now announces his lineup as follows: W. V. Eaton, catcher; E. R. Drake, pitcher; Jesse B. Moss, first base; Willie Bradshaw, Jr., second base; Arthur Martin, third base; Mark Worten, short stop; Dennis Macquot, center field; Tom Crice, left field; Albin Barkley, right field. This is the regular line up, while the substitute pitchers are Judge Berry, Master Commissioner Cecil Reed and Lawyer J. S. Ross. The substitute catchers are J. Wheeler Campbell, Henry Hughes, Frank Lucas and Eugene Graves. Lawyer George Oliver will be bat "toter" and look after the slippery elms, while John Hendrick is official coacher, Judge Marble official scorer and Dave Cross official press representative.

"The doctors may talk," Judge Lightfoot stated, "but we have a team which with a little practice will outlive Captain Violet and his brawny braves. We will train up on team work and have a few tricks up our sleeves which will show the 'Knife Wielders' up in great style."

Dr. Horace Rivers has the utmost confidence in his men and is also practicing a little team work. He has not yet announced his definite lineup but is carefully selecting the best material possible to obtain.

LIGHT ENGINES

SHIPPED TO OTHER PLACES BY THE I. C.

Three switch engines which have been standing in the local I. C. shop yards for many weeks, have been shipped to Chicago for repairs and will be put on some suburban line or in light switching service when completed.

These engines are Nos. 1561, 1563 and 1571, all small type engines which had become too light for the work done in the local yards. One was burned out and rendered useless and with the others assigned to the repair shops, but on account of the amount of work to be done could not be repaired this summer. They are the last of the small engines which had been in service since the I. C. assumed control of the road.

NO GOOD SITE FOR THE NEW TIN SHOP

Several Changes Proposed in the I. C. Yards.

The Master Mechanics Office May Be Moved to Eleventh and Broadway.

IT IS NOT YET DECIDED ON

The plan of the Illinois Central for building a new tin shop here has struck a snag as no desirable location has yet been selected.

An official proposes a very good plan which he thinks will be carried through if pushed hard enough. This is to remove the master mechanic's office and use the office for the tin shop. The store room department could still be kept in the building but the offices of the master mechanic and his clerical force could be moved if the plan is carried out, to the north west end of the round house, where new offices will be built. The cost of a new office for the master mechanic will be comparatively little more than a new tin shop, and will be far better, inasmuch as all noise from the shops will be eliminated, and the clerks can work to better advantage.

This plan has been suggested and will be accompanied by the approval of the several local officials. The site selected for the new office is nearly in the same place the old dispatchers office stood. If the dispatchers offices are finally moved to Broadway, this will bring all officials closer together and better results can be obtained.

SHORT SESSION

Board of Public Works Held a Meeting Last Evening.

Will Ask the Council to Order Pavements on West Broadway.

The Board of Public Works held a brief meeting last night, and decided to recommend to the general council the improvement of West Broadway to Fountain Avenue by paving the sidewalks, and that the city pay half the cost in order to get the property necessary for the sidewalks, which some of the residents refused to give unless the city would agree to pay half the cost of the pavements.

Bids were opened for improving an alley from Tenth street into the block bounded by Norton and Jones, but the letting of the contract was postponed until tomorrow night. The board then adjourned to meet Friday evening to take up other matters.

At Friday night's meeting the matter of formulating the quarterly report of the board of public works will be taken up. The report will take in everything done from April 1 to July 1 and is a very tedious matter.

The ordinances for the storm water sewer on Court street, the double tracking franchise proposition offered by the street car company, the Myers and Bridge street, the drainage on West Clay street and other matters will also be brought up.

The engineers report on the West Clay street survey is in and if followed out will cost quite a neat sum to perfect the drainage. The engineer recommends that the street be raised for two squares, and the water thrown over via Harrison and 16th street into Bradshaw's creek. This will be the only way the deficient drainage can be remedied.

CLOSE CALL

Arthur Chiles Falls Into Gutter From Epilepsy.

Was Drowning When Meat and Milk Inspector Pulled Him Out.

Arthur Chiles, a youth well known on the streets, came near drowning yesterday afternoon about 5 o'clock at Third and Jackson streets as a result of an attack of epilepsy, but was fortunately seen in time and rescued by Dr. C. G. Warner, the newly elected milk and meat inspector whose office is at that corner. The boy was walking near the edge of the pavement when he fell over in the fit. There is always about a foot of water standing in the gutter, the drainage being bad, and Chiles' head fell in it and was completely covered. Dr. Warner was standing in his office and saw the boy struggling in the water and quickly pulled him out.

Had he remained a few moments longer he would undoubtedly have drowned.

NOTHING DOING

SHERIFF POTTER WILL RETURN THE MILITARY PAPERS TO FRANKFORT.

Sheriff Lee Potter was last evening advised by his attorney that the sheriff of a county does not have to serve papers of the nature of those sent here by the adjutant general of the state ordering the arrest and delivery to the jailer of a dozen or more members of the state guard who refused to pay fines assessed against them by court martial. Sheriff Potter will accordingly return the papers to Frankfort, and it is not known what the state officials will do regarding his refusal to obey their instruction to serve the papers.

Now the lodge here has decided to reciprocate by inviting the Paducah brothers to come to this city Tuesday evening, July 19, and give a demonstration of the practical workings of the first degree of that popular order on a real live candidate.

The Paducah lodge will doubtless accept the invitation and a gala day for the Knights of Pythias in this city will follow.

CASE DISMISSED

THE OWEN SUIT DID NOT LAST LONG IN COUNTY COURT.

The suit of Auditor's Agent Frank Lucas against Owen Brothers, of the ferryboat, for back taxes on their earnings for 1901, 2-3, was yesterday afternoon dismissed by Judge Lightfoot in county court. It was claimed by the plaintiff that the defendants had made \$500, profit during the years named, and that the state should collect taxes on it, but the defendants showed by their books that the claim of the state agent was unfounded. No time has been set for hearing the similar cases against other steamboat lines.

SURRENDER OF BRYAN TO WALL STREET.

Mr. Bryan was never accused of consistency, but after weighing his recent statement to the press, the unbiased thinker will be unwilling to credit him with ordinary intelligence or political honesty.

In the first place, he makes it plain that he is going to vote for Parker and Davis because of "the party." He does not profess to feel any enthusiasm for the candidates because of their intelligence or character, but appears to lose sight of these essentials in contemplation of the platform, something he is unwilling, or unable to do, in discussing the Republican platform. His first reason for voting for the Democratic ticket is that it "stands for opposition to imperialism." Mr. Bryan knows he attempted to raise this issue before, and the Democratic party was unable to make anything of it except a silly bogbear. The people of the United States refused four years ago to accept the Democratic view of so-called imperialism, or if they accepted it they repudiated it together with the Democratic party, and ratified the Republican party's Philippine policy.

His second reason has nothing to do with the principles of either party, and is that "Mr. Roosevelt is injecting the race issue into American politics," which is as absurd as the "imperialism" tomfoolery. Mr. Bryan digresses, it is noticed, from Republican principles to Mr. Roosevelt. There is no race question in American politics except that which the Democratic party chooses to inject.

His third reason is "Mr. Roosevelt," again. "Mr. Roosevelt," he declared, "stands for the spirit of war." Mr. Roosevelt doesn't, but what if he did? The Republican party or platform doesn't. Mr. Bryan, himself, probably does not stand for the spirit of war. He enlisted during the Spanish-American war to make a grand stand play to the country at large, and when his cheap politics finally threatened to take him into some of the real hardships of army life he hastily resigned. No, Mr. Bryan is not for the

spirit of war—when there is any possibility of anything more realistic than dressing up in a showy uniform and strutting about on parade.

His fourth reason is that the Democratic party "favors a reduction of the standing army." The American people and the Republican party are for a standing army in proportion to our size and importance, and one that will enable the United States to hold her place as a world power. Do Mr. Bryan and the Democratic party favor or oppose this? These are the only four reasons Mr. Bryan gives for voting the Democratic ticket. As to whether or not they are reasons is left for the reader to judge. On the other hand, he admits that the Democratic party is in the hands of Wall street, and says of Judge Parker, "Nothing good can be expected of him on the money question."

He says further that—"The nomination of Judge Parker virtually nullifies the anti-trust plank" of the Democratic platform. He declares that "the labor plank as presented by Judge Parker's friends on the subcommittee was a straddling, meaningless plank. In the full committee planks were adopted in favor of arbitration, the eight-hour day and against government by injunction; also a plank on the Colorado situation. If Judge Parker is silent or ambiguous on these subjects it will mean that the financial influence back of him will not permit him to take the labor side on these disputed questions."

He also adds that the Parker men on the committee were for a conservative tariff plank, intimating that he is not very sanguine of anything from Democracy in the tariff line.

He says of Judge Parker's expression on the money question:

"If he had sent to the Albany convention the telegram that he sent to the St. Louis convention he would have had very few instructed delegates from the south and no possible chance for the nomination. But he and his managers adroitly and purposely concealed his position until the delegates had been corralled and the nomination assured. Then his friends attempted to secure a gold plank, which was overwhelmingly defeated in the committee. After the party had rejoiced over the harmony secured by the omission of the question, and after he had secured the nomination, he injected his views upon the subject at a time when he could not be taken from the ticket without great demoralization. The nomination was secured therefore by crooked and indefensible methods, but the Democrat who loves his country has to make his decisions upon conditions as he finds them, not upon conditions as he would like to have them."

Mr. Bryan significantly concludes his irrational epitome with the observation:

"As soon as the election is over, I shall, with the help of those who believe as I do, undertake to organize for the campaign of 1908, the object being to marshal the friends of popular government within the Democratic party to the support of a radical and progressive policy to make the Democratic party an efficient means in the hands of the people for securing relief from the plutocratic element that controls the Republican party, and for the time being in control of the Democratic party."

Yet Mr. Bryan is going to support the ticket—a ticket he admits was successfully put through by chicanery and deceit, by "crooked and indefensible methods" on the part of the "plutocratic element" of the Democratic party. It is clear that Mr. Bryan is hopelessly cowed. He stands self-convicted of insincerity, cowardice and political dishonor. He knows it is his duty to his country, if he be-

lieves what he says about the Democratic ticket and the men responsible for it, to repudiate it; yet he is a moral coward, and afraid to do it, something Mr. Cleveland and other Democrats were not afraid to do when the Democratic party didn't do to suit them. Mr. Bryan has been whipped into line by the gold bug bosses.

It is likely also that Mr. Bryan loves power and notoriety too well—and he doesn't pass up the Almighty Dollar either for that matter when he finds it within reach—and knows his only hope of retaining any prestige at all is by staying in the party. Despite his grandiloquent assertion only a few days ago that "a man's duty to his country is greater than his duty to his party," he now turns against his country, and announces that he will support a crowd backed by "the plutocratic element"—a ticket put out by political mountebanks on a meaningless platform; the head of it a dumb nonentity, the tail a senile obscurity for years identified with corporations and trusts—and the creators of it as unscrupulous a band of commercial pirates and grafters as ever waved a black flag in American politics.

THE "SANE" FELLOWS IN CHARGE.

Those optimistic Democrats who are trying to keep up a bold front in spite of the Democratic party's deplorable condition, will have a hard time doing it. W. J. Bryan himself may not take any part hereafter in opposing Judge Parker, but a good many of his followers will. It is announced that a conference is to be held within thirty days to decide on a course of action, and meanwhile some of the bolder of the Bryanites have sufficiently recovered from their bewilderment to get mad and prepare for an assault. Here is what Alexander Troupe, former Democratic National Committeeman of Connecticut, and Colonel Bryan's closest political friend in the east, says:

"I am thoroughly disgusted with the whole thing. I am neither a liar nor a hypocrite. I don't believe that Mr. Bryan will take the stump, because I fail to see how he can consistently do it. Possibly the men now in control of the Democratic organization would not care to have him do it. The party now being under the control of 'safe and sane' men, the 'unsafe and insane' men having been relegated to the rear, the opportunity presents itself to see what can be accomplished by the advocates of the 'safe and sane' policy."

The party is hopelessly split and will be more so before the campaign is over.

Now watch out for Democratic consistency! If the western meat packers who went on a strike Tuesday are refused their demands, the democratic press will begin its usual harangue about the Republican claim of prosperity, and offer in refutation the irrelevant refusal of these packing houses to pay more money to their employees. If the houses grant the demands on the other hand, and raise the price of meat in proportion in order to do it, the Democratic press will howl "trust and robbers." The idea with which the Democrats seem to be imbued is that everybody's wages ought to be high the price of every product ought to be low, and the only remuneration the men who do things with their brains and capital ought to expect, is the satisfaction of becoming public benefactors by working for nothing and using their money solely for the benefit of others.

The butchers, who have been complaining about the encroachments of the meat trust now have a chance to show their sincerity. The packers' strike, theoretically at least, will result in higher prices in dressed meats among those affected by it, and lower prices for beef and other meats on hoof. If there is a reduction in the number of those engaged to slaughter the meat there will be a reduction in the output of dressed meat, and this will leave thousands of unslaughtered cattle, thus making the supply larger than the demand, and cheapening unslaughtered cattle for those butchers and packers not affected by the strike. It is likely, though, that all who handle fresh meats will boost the prices just because they can, not because they have to. The strike, fortunately, comes at a time when vegetables are plentiful, and there is no reason people should seriously suffer.

Those who are looking for Democrats "who are not going to vote the Democratic ticket" are respectfully referred to the places in Paducah where the Hearst and Bryan men hang out. The Sun can give the names of a dozen prominent local Democrats

and former office-holders who say they are not going to vote for Parker and Davis. They are not going to vote for Roosevelt and Fairbanks, either, but say they will stay at home and not vote at all. There are a world of Democrats who will not vote the Democratic ticket this time, and it is no trouble to find them. The thing is, the Democrats don't want to find them.

Says yesterday's Courier-Journal: "After wandering eight years through a very morass of Socialism and Populism—fed on half truths and misled by false lights—the Democrats of the United States once again come into the open and upon the highways of life and thought." The question now is, what are they going to do with those Democrats responsible for the "Socialism and Populism"—those who fed the party on "half truths"—and who were in the majority for eight years.

There is absolutely no excuse for meat going up in Paducah and other towns of this size on account of the big strike. In cities where the bulk of the beef is furnished by the big packers there is some reason for higher prices, but not here, where the people have local butchers to depend on.

The city of Owensboro ought to be an expert with the gloves by this time. Every day or two we read where it gets "knocked out" on some legal point, by the water company. Just to vary the monotony Owensboro ought to win a point herself occasionally.

Mr. Bryan has decided that a man's duty to his country is not greater than his duty to his party, after all.

HILLS' COUP IS EXPOSED

New York, July 13.—Gradually the facts in connection with the now famous telegram of Judge Parker are becoming known. That the omission of the money question in the platform and the telegram of Parker were part of a prearranged plan on the part of Hill and others is more than strongly intimated in certain Democratic circles and firmly believed by Republican leaders.

It is suggested that the omission of the gold plank was to win over some of the Southern states, and that before Hill consented to the programme it had been arranged that Parker should come out with his gold declaration. In this way it was figured a platform satisfactory to the Bryanites could be put through the convention, and then when the delegates were worn out with long night sessions and it had become too late to reconsider the nomination of Parker, his telegram could be diplomatically sprung and a winning play made to the Democrats of the country who were disgusted with the Hill-Bryan declaration of principles.

With the atmosphere clear now those who were inclined to say that there was sincerity in the convention are willing to concede that every step was coldly calculated and planned to bring about the very results achieved.

Judge Parker, it is freely said, knew on Thursday night that the gold plank was beaten for the platform. There was just one alternative—namely that the platform contain a gold plank and also an income tax plank. All of the delegates to the convention knew this, and they also knew when Judge Parker's telegram to Sheehan was read to them that the nominee had deliberately waited until after the platform had been adopted, he himself had been nominated, and the nomination of a candidate for vice president was being proceeded with by 1000 tired and worn out men before he said one word to them about his views on anything.

Judge Parker spoke at the wrong time and at too late a time to make an effort for absolute sincerity. He might have spoken forty-eight hours earlier, when he knew that the gold plank would be defeated, and before he had been nominated on a meaningless money platform. The impression that Judge Parker's telegram will create will be that when Judge Parker sent that telegram he was speaking not to the convention, but to Wall street, and the financial interests of the East generally.

To offset the transparent features of the Parker-Hill-Sheehan-Belmont coup Democratic leaders in the east and Democratic newspapers are working themselves into a frenzy in denouncing Hill. He is called "craven and cowardly" for yielding to Bryan in the committee on resolutions, when, as a matter of fact, he was only carrying out the first part of the pre-conceived plan which was to be crowned with success by the Parker telegram. The reason for the attacks on Hill is obvious. Democrats realize that any candidate nominated by association with Hill stands no show of carrying the state of New York.

The whole Parker campaign must necessarily be associated with Wall street and the trusts. The position of August Belmont is well known. The chairman of the state Democratic committee, Con. Meyer, is a sugar trust man. The assertion of Thomas W. Lawson of Boston, that Patrick H. McCarren, one of Parker's chief lieutenants, is on the pay roll of the Standard Oil company has been repeated by that gentleman with an offer of \$100,000 to the Democratic campaign fund if he can not prove his assertion. There is also resentment over the double dealing in connection with the platform, the adoption of which was to placate a certain element and having done so to enter into an alleged agreement whereby at the last moment, the moneyed interests of the party could be placed at ease by an expected statement from the presidential nominee.

Use Shoffner's Sure Cure

The Great Tonic and Blood Purifier—Cures Indigestion,
Dyspepsia and Catarrh.

It is a trite and true saying that the "blood is the life." Now where does the blood come from? Everybody knows, or should know, that it comes from the nutritive elements extracted by the stomach from the food we eat. If the digestive organs do not perform their functions by reason of disease germs, there is no nutrition extracted, and the food might better be thrown in the dump to decay and breed germs in the open air than to remain in the stomach and become a rotten, putrid mass, as it naturally does if there is no digestion. No disease germ can live and find lodgment in a human body that uses the Shoffner's Sure Cure. Price \$1.00.

What People Say of the Shoffner's Sure Cure.

PADUCAH, KY., March 5, 1903.
To Whom It May Concern:
This is to certify that I was a sufferer with indigestion for five years and could get no relief until I bought one bottle of Shoffner's Sure Cure, and it helped me so much that I took six bottles and it has cured me sound and well, thanks to the Shoffner's Sure Cure.
MRS. JOHN SMEDLEY, 806 S. Third St.

This is to certify that I believe the Shoffner's Sure Cure saved my life. I was not able to sit up in bed when I began taking the remedy. I had such a severe cough I thought I had consumption. Physicians had given me up to die. After taking one bottle I was able to sit up some. After using five bottles I was fully restored to health. I cannot say enough in favor of this wonderful remedy for indigestion.
MRS. SUE GRAHAM, Moscow, Ky.

If after using one bottle according to directions you are not benefited, your money will be refunded.

The Blazed Trail

By STEWART EDWARD WHITE

"And," then pursued Northrop, with a dry smile, "they practically own Sherman. You may be in for contempt of court—at their instigation. As I understand it, they are trying rather to injure you than to get anything out of it themselves."

"That's it," nodded Thorpe.

"In other words, it's a case for compromise."

"Just what I wanted to get at," said Thorpe, with satisfaction. "Now answer me a question. Suppose a man injures government or state land by trespass. The land is afterward bought by another party. Has the latter any claim for damage against the trespasser? Understand me, the purchaser bought after the trespass was committed."

"Certainly," answered Northrop without hesitation, "provided suit is brought within six years of the time the trespass was committed."

"Good! Now, see here. These M. & D. people stole about a section of government pine up on that river, and I don't believe they've ever bought in the land it stood on. In fact, I don't believe they suspect that any one knows they've been stealing. How would it do if I were to buy that section at the land office and threaten to sue them for the value of the pine that originally stood on it?"

The lawyer's eyes glimmered behind the lenses of his pince-nez.

"It would do very well indeed," he replied, "but you'd have to prove they did the cutting, and you'll have to pay experts to estimate the probable amount of the timber. How much, on a broad guess, would you estimate the timber to come to?"

"There ought to be eight or ten millions," guessed Thorpe after an instant's silence, "worth in the stump anywhere from sixteen to twenty thousand dollars. It would cost me only eight hundred to buy it."

"Do so by all means. Get your documents and evidence all in shape and let me have them. I'll see that the suit is discontinued then."

The next day Thorpe took the train north. By the time he had bought the sixteen acres constituting the section, searched out a dozen witnesses to the theft and spent a week with the Marquette expert in looking over the ground he had fallen into the swing of work again. His experience still ached, but duly.

Only now he possessed no interests outside of those in the new country. No affections save the half protecting, good natured comradeship with Wallace, the mutual self restraint respect that subsisted between Tim Shearer and himself and the dumb, unreasoning dog barking he shared with Injun Charley. His eye became clearer and steadier, his methods more simple and direct. The taciturnity of his mood redoubled in thickness. He was less charitable to failure on the part of subordinates. And the new firm on the Ossawinimakee prospered.

CHAPTER XX.

FIVE years passed. In that time Thorpe had succeeded in cutting 100,000,000 feet of pine. The money received for this had all been turned back into the company's funds. From a single camp of twenty-five men the concern had increased to six large, well equipped communities of 80 to 100 men apiece, using nearly 200 horses and hauling as far as eight or nine miles.

Near the port stood a mammoth saw-mill capable of taking care of 22,000,000 feet a year, about which a lumber town had sprung up. Besides its original holding the company had acquired about 250,000,000 more back near the headwaters of the Ossawinimakee.

During the four years in which the Morrison & Daly company shared the stream with Thorpe the two firms lived in complete amity and understanding. Northrop had played his cards skillfully. The older capitalists had withdrawn suit. Afterward they kept scrupulously within their rights and saw to it that no more careless openings were left for Thorpe's shrewdness.

And as the younger man on his side never attempted to overstep his own rights the interests of the rival firms rarely clashed. As to the few disputes that did arise Thorpe found Mr. Daly singularly anxious to please. In the desire was no friendliness, however. Thorpe was watchful for treachery and could hardly believe the affair finished when at the end of the fourth year the M. & D. transferred its operations to another stream a few miles east.

"They're altogether too confounded anxious to help us on that freight, Wallace," said Thorpe, wrinkling his brow uneasily. "I don't like it. It isn't natural."

Thorpe's Camp One was celebrated in three states. Thorpe had set out to gather around him a band of good woodsmen. Except on a pinch he would employ no others.

"I don't care if I get in only 2,000 feet this winter, and if a boy does that," he answered Shearer's expostulations, "it's got to be a good boy."

The result of his policy began to show even in the second year. Men were a little proud to say that they had put in

a winter at "Thorpe's One." Those who had worked there during the first year were loyal enthusiasts. As they were authorities others perforce had to accept the dictum. There grew a desire among the better class to see what "Thorpe's One" might be like. In the autumn Harry had more applicants than he knew what to do with. Eighteen of the old men returned. He took them all, but when it came to distribution three found themselves assigned to one or the other of the new camps. And quietly the rumor gained that these three had shown the least willing spirit during the previous winter.

Tim Shearer was foreman of Camp One, Scotty Parsons was drafted from the veterans to take charge of Two, Thorpe engaged two men known to Tim to boss Three and Four, but in selecting the "push" for Five he sought out John Radway and induced him to accept the commission.

"You can do it, John," said he, "and I know it. I want you to try, and if you don't make her go I'll call it nobody's fault but my own."

The result proved his sagacity. Radway was one of the best foremen in the outfit. He got more out of his men, he rose better to emergencies, and he accomplished more with the same resources than any of the others excepting Tim Shearer. As long as the work was done for some one else he was capable and efficient. Only when he was called upon to demand on his own account did the paralyzing shyness affect him.

But the one feature that did more to attract the very best element among woodsmen was Camp One. Old woodsmen will still tell you about it, with a longing reminiscent glimmer in the corners of their eyes as they recall its glories and the men who worked in it. To have "put in" a winter in Camp One was the mark of a master and the ambition of every raw recruit to the forest.

But Camp One was a privilege. A man entered it only after having proved himself; he remained in it only as long as his efficiency deserved the honor. Its members were invariably recruited from one of the other four camps, never from applicants who had not been in Thorpe's employ.

So Shearer was foreman of a picked crew. Probably no finer body of men was ever gathered at one camp. Some of them had the reputation of being the hardest citizens in three states; others were mild as turtles. They were all pioneers. They had the independence, the unabashed eye, the insubordination even, of the man who has drawn his intellectual and moral nourishment at the breast of a wild nature. They were afraid of nothing alive. From no one, were he chore boy or president, would they take a single word, with the exception always of Tim Shearer and Thorpe.

And they were loyal. It was a point of honor with them to stay "until the last dog was hung." He who deserted in the hour of need was not only a renegade, but a fool, for he thus earned a magnificent licking if ever he ran up against a member of the "Fighting Forty." A band of soldiers were they, ready to attempt anything their commander ordered, and, it must be confessed, they were also somewhat on the order of a band of pirates. Marquette thought so each spring after the drive, when, hat tilted, they surged, swearing and shouting, down to Denny Hogan's saloon. Denny had to buy new fixtures when they went away, but it was worth it.

Fraud! It was no name for it. Boast! The fame of Camp One spread abroad over the land. Some people thought Camp One must be a sort of hellhole of roaring, fighting devils. Others sighed and made rapid calculations of the number of logs they could put in if only they could get hold of help like that.

Thorpe himself, of course, made his headquarters at Camp One. During the five years he had never crossed the

OMINOUS CLOUD

Many People Frightened by Its Dangerous Look.

Thermometer Had Been Soaring all the Forenoon Before Relief Came.

One of the worst looking clouds ever seen in Paducah was that which came up about noon today. It bore every indication of being dangerous, and almost turned day into night for a short time but fortunately most of it passed away to the northeast. It undoubtedly did damage somewhere, but fortunately none here.

The forenoon had been one of the most sultry and oppressive of the summer, the mercury going to 96 in the shade before noon. The temperature gave every promise of being the hottest of the year when the storm came up. The wind in the cloud seemed to have missed this section and after the rainfall, which amounted to about half an inch, the atmosphere was considerably cooled.

The telephone and telegraph companies report little damage done to wires by the storm. The Mayfield and Union City wires were down this afternoon but all other long distance wires were reported in good working order. No serious damage over the country was reported at press time.

UNDER A TRESTLE

ONE KENTUCKIAN WAS AMONG THE INJURED.

Havana, Ark., July 14.—Rock Island passenger train No. 2, east bound, was badly wrecked three miles west of here. The tender of the engine jumped the track a few yards before reaching a trestle and the baggage, mail, smoker and chair cars hurled under the trestle, a distance of ten or twelve feet, bottom upwards. No one was killed. The list of injured are: Miss N. J. Brooks, Louisville, Ky.; injured internally, condition serious; J. W. Husey, Toone, Miss.; George Jenkins, porter on train; B. F. Thorpe, express messenger; Jeff D. Ferguson, Booneville, Ark.; B. B. Shipp, Little Rock; H. H. Palett, Redwood, Okla.; L. L. Brown, Memphis; J. E. L. Cooper, Miss O. E. Fooden and Conductor Leo Weed. Most all the above were injured only slightly and were able to be moved this afternoon. The wreck will not be cleared before midnight.

BIG SANDPILE

Messrs. L. E. Girardey and Will Bradshaw, Jr., were driving home last evening when their horse stumbled into a big sand pile on Broadway in front of the new building adjoining the Catholic church. Mr. Girardey states that the sand takes up fully half the street, and there was no danger signal of any description about it. His horse was thrown down and partially wrecked the buggy, running away and not being recaptured until this morning. Fortunately neither gentleman was injured.

PARTY TO CAIRO.

Miss Mahel McNichols, and Mrs. McNichols gave a boat party to Cairo today on the steamer Dick Fowler. The party will return this evening. It was composed of Mrs. W. J. Hills, Misses Blanche Hills, Lucy Patton, Blacksburg, Va.; Susie Bronston, Lexington, Lillie May Winstead, May Owen, Marie Cates, Jackson, Ethel Brooks, Messrs. Leo Keller, Harry Splain, Horace Sowell, Overton Brooks, John Brooks, Grover Jackson, Edward Epstein.

WILL BE BROUGHT HOME.

A telegram was received this afternoon from Mr. Will Mannich who is in St. Louis attending the bedside of his stepfather, Mr. I. Young, stating that Mr. Young was much worse and would probably be brought home tonight.

DEATH OF AN INFANT.

INAUGURAL PUBLIC SALE OF TOWN LOTS AND MANUFACTURING SITES

The Future Great Inland City of the Southwest,

Nortonville, at the Junction of the I. C. and L. & N. Railroads

Surrounded On All Sides by Important Cities and Towns, Namely:

Evansville, Ind.; Nashville, Tenn.; Paducah, Owensboro, Henderson, Hopkinsville, Princeton, Russellville, Central City, Morganfield, Hodgenville, Eddyville, Fulton, Providence, Madisonville, Elkton, Smith Grove and many others.

A POINT AT WHICH OVER 80 TRAINS PASS DAILY.

A Town Site Possessing More Attractive, Original Features Than Any Inland City Had at Its Inception.

TO OCCUR ON WEDNESDAY AND THURSDAY, JULY 20 AND 21, 1904.

Nortonville is the Center of the Great Mining Interests of Western Kentucky.

The Nortonville Coal Co., having recently become possessed of the town site and 2,000 acres surrounding it, and having expended large sums of money in sinking shafts and opening magnificent coal mines surrounding the site, which are producing wonderful results, employing over 300 artisans and miners, the families of which form a population of 1,000 people, have determined to offer to the public an opportunity to become original participants in the inauguration of what it believes is destined to be, and which, by reason of its location and natural advantages, must, at an early day, be a very important inland city.

SOME OF THE ADVANTAGES OF NORTONVILLE.

Nortonville is the center of a fine agricultural section and sufficiently distant from Hopkinsville, Paducah, Evansville, Ind., Nashville, Tenn., and twenty other surrounding towns and cities above mentioned, all within a radius of twenty to fifty miles, to make it a distributing point for them and the adjacent country. The town site is a beautiful level valley, widening out to undulating hills, rich in coal and offering every inducement for the investor and the homeseeker. The water supply is abundant, the climate and all other conditions are such as to justify the prophecy that with a little energy and enterprise on the part of its own people it will soon be one of the best inland towns in the State of Kentucky.

THE NORTONVILLE COAL CO.

has demonstrated its faith in the merits and future prospects of this property by expending a half-million of dollars in opening mines, building houses, improving the social and moral conditions and starting the various enterprises which are necessary for the well-being of the present population. With magnificent R. R. facilities and cheap fuel, the nucleus of a thriving town is already formed.

Inviting the co-operation of the world at large in their enterprise, the company will, on July 20 and 21, offer for sale lots and tracts in accordance with a map, which will be ready for distribution July 1. Cheap accommodation for all who attend the sale will be provided, and the company will give a GRAND BARBECUE on the first day of the sale (July 20), to which all who attend the sale will be invited.

An effort will be made to secure reduced rates to parties attending the sale. The terms of the sale will be exceedingly liberal.

THE WATER SUPPLY TO BE INCREASED

Water Mains to be Extended to
Coal Chute.

A Big Water Tank Is To Be In-
stalled At the Dispatchers
Office Soon.

FIRE PROTECTION IS WANTED

Mr. Clarence Knowles, superintendent of water supply of the Louisville division of the Illinois Central, was in the city this morning preparing to put in a water tank at the local dispatchers' office, and will begin on the job as soon as the material arrives.

The water mains will be extended south from Tennessee street along the railroad tracks, and will be carried to the coal chute, a distance of several squares past the dispatchers office.

The object of this location for a tank is to water engines scheduled straight through, without the inconvenience of uncoupling and taking them to the round house for water. The plant to be installed at the coal chute is to water the coal and keep down dust.

Fire protection is also desired and a fire fighting apparatus will be put in at both the dispatchers' office and the coal chute. This improvement will be made by the railroad which will even pay for the mains to be laid and the item of expense will be large. This had been in contemplation for sometime and the material will arrive within the next few days and actual work started next week.

DIED OF MENINGITIS.

Mary, the 8-months-old child of Mr. Charles Short, died this morning at 10:30 o'clock at the family residence, 223 Adams street of brain fever and spinal meningitis. No funeral arrangements have been made.

I. C. Employees Leave Paducah
to Work There.

Will Enter the Large Forces Under
General Manager J. F. Wallace.

Messrs. Charles Shelley and Frank Linehan, pipe fitters employed in the local Illinois Central shops, have severed their connections with the road and will leave tonight for Panama to work on the canal. They are probably the first tradesmen to go from Paducah to work on the canal and are old employees of the road, having been here for more than three years. Of late many tradesmen have taken the "canal fever" and from all over the country they are leaving for Central America. Wages are good and while the country is not a very good one for pleasures, the men intend to profit by the trip.

Mr. Charles Brizzalaria left night before last for Panama to work in the civil engineering department.

TWO TOWERS

AND THEN THE SMITHLAND
LINE WILL BE COMPLETE.

Mr. A. L. Joynes, manager of the local Cumberland Telephone Company went to Calvert City this morning to look after the work on the Smithland branch line.

Mr. Joynes stated that only two towers remained to be built, and when these are finished the line will be in immediate operation. Few delays were met with in the construction of the line and the work has progressed with remarkable rapidity.

COUNTY COURT.

NICE COMPLIMENT

Banquet Given at Palmer for
Mr. Urey Woodson.

Was in Honor of Democratic National
Committeeman's Recent Victory
in St. Louis—Covers For 100.

An elegant banquet was given to Hon. Urey Woodson at the Palmer house last night by a number of citizens, in honor of his recent victory in the national convention at St. Louis, in being elected to the position of national Democratic committeeman from Kentucky for the third time. Mr. Woodson arrived in the city yesterday for the first time since the convention.

The banquet table was placed in the dining room at the Palmer, and was arranged in the form of a cross. The guest of honor and those who made toasts, occupied the head of the table, where the cross was formed and the guests were seated along the sides. The table was prettily decorated in flowers, and covers were laid for about 100. The banquet was served in five courses, ending with wines.

Judge W. A. Berry was toastmaster and a number of bright, short and feeling speeches were made, congratulating Mr. Woodson upon his success. Judge Berry made the opening speech and others were made by Judge W. M. Reed, ex-Mayor Charles Reed, Captain Ed Farley, Judge James Campbell, Judge D. G. Park, Judge Henry Hughes, Captain William Kraus, Messrs. Virgil Sherrill, Gus Singleton, L. K. Taylor, U. O. McChord, Springfield; Mac. D. Ferguson, Sam Hynes, J. T. Donovan, E. W. Bockmon, Irvin Cobb, Harry Johnston, F. M. Fisher, Charles Trueheart, Louisville; J. E. English, Muscoe Burnett, Eugene Graves, Charles Graham, Thomas Harrison, James Utterback, J. O. Flournoy, Charles Emery, W. K. Bowman, John Jackson, Hal Corbett.

Mr. Woodson made the concluding speech thanking his friends for the compliment to him, and expressing his gratification at their feeling about his election.

Mr. John Melan, who could not be present at the banquet sent a bright note of regrets, which was read.

INCREASES IN PAY OF RURAL CARRIERS

Official Notice Received This
Morning.

The Carriers Have Been Getting \$600
—The Maximum Is Now \$700
a Year.

AMOUNTS FOR CARRIERS HERE

The notice of increases in pay for rural free delivery carriers was received at the local postoffice this morning. The increase is effective July 1, but the official notice and the amounts were not received until today. The changes are as follows:

Route No. 1, to \$720.
Route No. 2, to \$684.
Route No. 3, to \$720.
Route No. 4, to \$648.

The rural carriers have been paid \$600 a year heretofore, but under the new arrangements are to be paid by the mile, the maximum salary being \$720, which is for a 25 mile route.

The rural carriers have proven a great benefit in the rural districts and their daily visits are hailed with joy, and have connected the cities with the country in a most profitable way.
